THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EU) 2016/429 of the European Parliament and of the Council of 9 March 2016 on transmissible animal diseases and amending and repealing certain acts in the area of animal health ('Animal Health Law') ⁽¹⁾, and in particular Article 230(1), Article 232(1), point (b) and Article 232(3), point (b) thereof,

Whereas:

- (1) Regulation (EU) 2016/429 provides that consignments of animals, germinal products and products of animal origin from third countries or territories are only to be allowed to enter into the Union if the third countries or territories concerned are listed in accordance with Article 230(1) of that Regulation.
- (2) Commission Delegated Regulation (EU) 2020/692 ⁽²⁾ lays down the animal health requirements that consignments of certain species and categories of animals, germinal products and products of animal origin, from third countries, territories, or zones thereof, or compartments thereof in the case of aquaculture animals, must comply with in order to enter the Union.
- (3) Commission Implementing Regulation (EU) 2021/404 ⁽³⁾ lays down the lists of third countries, territories, or zones thereof, from which the entry into the Union of the species and categories of animals, germinal products and products of animal origin, falling within the scope of Delegated Regulation (EU) 2020/692, is permitted. Those lists and certain general rules concerning those lists are set out in Annexes I to XXII to that Implementing Regulation.
- (4) More particularly, Annexes V and XIV to Implementing Regulation (EU) 2021/404 set out the lists of third countries, territories, or zones thereof, authorised for the entry into the Union, respectively, of consignments of poultry and germinal products of poultry, and of fresh meat of poultry and game birds.
- (5) On 17 June 2026, the United States notified the Commission of a new outbreak of HPAI in poultry in the state of Rhode Island, which was confirmed on 12 June 2026 by laboratory analysis (RT-PCR).
- (6) Following that recent outbreak of HPAI, the veterinary authority of the United States notified the establishment of a restricted zone of at least 10 km around the affected establishment and the implementation of a stamping-out policy to control the presence of HPAI and limit the spread of that disease.

⁽¹⁾ OJ L 84, 31.3.2016, p. 1, ELI: <http://data.europa.eu/eli/reg/2016/429/oj>.

⁽²⁾ Commission Delegated Regulation (EU) 2020/692 of 30 January 2020 supplementing Regulation (EU) 2016/429 of the European Parliament and of the Council as regards rules for entry into the Union, and the movement and handling after entry of consignments of certain animals, germinal products and products of animal origin (OJ L 174, 3.6.2020, p. 379, ELI: http://data.europa.eu/eli/reg_del/2020/692/oj).

⁽³⁾ Commission Implementing Regulation (EU) 2021/404 of 24 March 2021 laying down the lists of third countries, territories or zones thereof from which the entry into the Union of animals, germinal products and products of animal origin is permitted in accordance with Regulation (EU) 2016/429 of the European Parliament and of the Council (OJ L 114, 31.3.2021, p. 1, ELI: http://data.europa.eu/eli/reg_impl/2021/404/oj).

- (7) The United States has submitted further information to the Commission on the epidemiological situation on its territory and the measures that were taken to prevent the further spread of HPAI following that recent HPAI outbreak.
- (8) The information provided by the United States has been evaluated by the Commission. In view of the animal health situation in the area under restrictions established by the veterinary authority of the United States, it is appropriate to suspend the entry into the Union of consignments of poultry and germinal products of poultry, and of fresh meat of poultry and game birds from the area concerned by the new outbreak in that third country in order to protect the animal health status of the Union, taking into account the date when the outbreak was confirmed. Therefore, the entries for the United States in the tables set out in Section B of Part 1 and in Part 2 of Annex V, and the table set out in Section B of Part 1 of Annex XIV to Implementing Regulation (EU) 2021/404 should be amended accordingly.
- (9) In addition, Canada, Chile and the United States have provided updated information to the Commission in relation to the epidemiological situation on their respective territories as regards earlier outbreaks of HPAI that gave rise to the suspension of the entry into the Union of consignments of poultry and germinal products of poultry, and of fresh meat of poultry and game birds, as set out in the table in Section B of Part 1 of Annex V, and in the table in Section B of Part 1 of Annex XIV to Implementing Regulation (EU) 2021/404.
- (10) In particular, on 11 June 2026, Canada submitted updated information on the animal health situation and the measures it had taken in relation to four outbreaks of HPAI in poultry in the provinces of Alberta and Saskatchewan, which were confirmed between 30 April 2026 and 19 May 2026 by laboratory analysis (RT-PCR).
- (11) On 25 June 2026, Chile submitted updated information on the animal health situation and the measures it had taken in relation to two outbreaks of HPAI in poultry in the Araucanía and Maule Regions, which were confirmed on 29 March 2026 and 15 April 2026 by laboratory analysis (RT-PCR).
- (12) On 26 June 2026, the United States submitted updated information on the animal health situation and the measures it had taken in relation to 13 outbreaks of HPAI in poultry in the states of Illinois, Indiana, Iowa, Kansas, Michigan, Montana, North Carolina, and North Dakota, which were confirmed between 12 November 2025 and 21 April 2026 by laboratory analysis (RT-PCR).
- (13) Canada, Chile and the United States have informed the Commission that, following those earlier outbreaks of HPAI, they had implemented a stamping out policy in order to control and limit the spread of that disease, and they had also completed the requisite cleaning and disinfection following the implementation of the stamping out policy in the infected poultry establishments.
- (14) The Commission has evaluated the information submitted by Canada, Chile and the United States in that regard and considers that they have provided appropriate guarantees that the animal health situation that had given rise to the suspension of the entry of consignments of poultry and germinal products of poultry, and of fresh meat of poultry and game birds into the Union from the affected zones, as set out in the table in Section B of Part 1 of Annex V, and in the table in Section B of Part 1 of Annex XIV to Implementing Regulation (EU) 2021/404, no longer represents a threat to animal or public health in the Union, and that, consequently, the entry into the Union of those consignments from the affected zones of Canada and Chile, from which entry into the Union had been suspended, should be re-authorised. Therefore, the entries for Canada and Chile in those tables in those Annexes should be amended accordingly.
- (15) Taking into account the new HPAI outbreaks in the United States, and in order to avoid any unnecessary disruption in trade with Canada, Chile and the United States, the amendments to be made to Annexes V and XIV to Implementing Regulation (EU) 2021/404 by this Regulation should take effect as a matter of urgency.
- (16) The measures provided for in this Regulation are in accordance with the opinion of the Standing Committee on Plants, Animals, Food and Feed,

HAS ADOPTED THIS REGULATION:

Article 1

Annexes V and XIV to Implementing Regulation (EU) 2021/404 are amended in accordance with the Annex to this Regulation.

Article 2

This Regulation shall enter into force on the day following that of its publication in the *Official Journal of the European Union*.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels, 2 July 2026.

Whereas:

- (1) Regulation (EU) 2016/429 provides that consignments of animals, germinal products and products of animal origin from third countries or territories are only to be allowed to enter into the Union if the third countries or territories concerned are listed in accordance with Article 230(1) of that Regulation.
- (2) Commission Delegated Regulation (EU) 2020/692 ⁽²⁾ lays down the animal health requirements that consignments of certain species and categories of animals, germinal products and products of animal origin, from third countries, territories, or zones thereof, or compartments thereof in the case of aquaculture animals, must comply with in order to enter the Union.
- (3) Commission Implementing Regulation (EU) 2021/404 ⁽³⁾ lays down the lists of third countries, territories, or zones thereof, from which the entry into the Union of the species and categories of animals, germinal products and products of animal origin, falling within the scope of Delegated Regulation (EU) 2020/692, is permitted. Those lists and certain general rules concerning those lists are set out in Annexes I to XXII to that Implementing Regulation.
- (4) More particularly, Annexes XIV and XV to Implementing Regulation (EU) 2021/404 set out the lists of third countries, territories, or zones thereof, authorised for the entry into the Union, respectively, of consignments of fresh meat of poultry and game birds, and of meat products from ungulates, poultry and game birds.
- (5) Following an outbreak of highly pathogenic avian influenza (HPAI) in poultry in the province of Buenos Aires, which was confirmed on 23 February 2026, Commission Implementing Regulation (EU) 2026/520 ⁽⁴⁾ amended, inter alia, the entries for Argentina in the table in Section B of Part 1 of Annex XIV to Implementing Regulation (EU) 2021/404, thereby suspending the entry into the Union of consignments of fresh meat of poultry and game

Implementing Regulation (EU) 2026/520 also included, in the entries for Argentina in the table in Section A of Part 1 of Annex XV to Implementing Regulation (EU) 2021/404, the requirement that consignments of meat products from poultry are only to be allowed entry into the Union if those meat products have undergone a specific risk-mitigating treatment 'D' in accordance with Annex XXVI to Delegated Regulation (EU) 2020/692.

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EU) 2016/429 of the European Parliament and of the Council of 9 March 2016 on transmissible animal diseases and amending and repealing certain acts in the area of animal health ('Animal Health Law') ⁽¹⁾, and in particular Article 230(1) and Article 232(1), point (b) thereof,

Whereas:

- (1) Regulation (EU) 2016/429 provides that consignments of animals, germinal products and products of animal origin from third countries or territories are only to be allowed to enter into the Union if the third countries or territories concerned are listed in accordance with Article 230(1) of that Regulation.

- (4) More particularly, Annexes V and XIV to Implementing Regulation (EU) 2021/404 set out the lists of third countries, territories, or zones thereof, authorised for the entry into the Union, respectively, of consignments of poultry and germinal products of poultry, and of fresh meat of poultry and game birds.
- (5) On 16 July 2026, the United States has notified the Commission of a new outbreak of highly pathogenic avian influenza (HPAI) in poultry in the state of Utah, which was confirmed on 13 July 2026 by laboratory analysis (RT-PCR).

⁽³⁾ Commission Implementing Regulation (EU) 2021/404 of 24 March 2021 laying down the lists of third countries, territories or zones thereof from which the entry into the Union of animals, germinal products and products of animal origin is permitted in accordance with Regulation (EU) 2016/429 of the European Parliament and of the Council (OJ L 114, 31.3.2021, p. 1, ELI: http://data.europa.eu/eli/reg_impl/2021/404/oj).

- (7) The United States has submitted further information to the Commission on the epidemiological situation on its territory and the measures that were taken to prevent the further spread of HPAI following that recent HPAI outbreak.
- (8) The information provided by the United States has been evaluated by the Commission. In view of the animal health situation in the area under restrictions established by the veterinary authority of the United States, it is appropriate to suspend the entry into the Union of consignments of poultry and germinal products of poultry, and of fresh meat of poultry and game birds from the area concerned by the new outbreak in that third country in order to protect the animal health status of the Union, taking into account the date when the outbreak was confirmed. Therefore, the entries for the United States in the tables set out in Section B of Part 1 and in Part 2 of Annex V, and the table set out in Section B of Part 1 of Annex XIV to Implementing Regulation (EU) 2021/404 should be amended accordingly.
- (9) In addition, the United States have provided updated information to the Commission in relation to the epidemiological situation on their respective territories as regards earlier outbreaks of HPAI that gave rise to the suspension of the entry into the Union of consignments of poultry and germinal products of poultry, and of fresh meat of poultry and game birds, as set out in the table in Section B of Part 1 of Annex V, and in the table in Section B of Part 1 of Annex XIV to Implementing Regulation (EU) 2021/404.
- (10) In particular, on 17 July 2026, the United States submitted updated information on the animal health situation and the measures it had taken in relation to 17 outbreaks of HPAI in poultry in the states of Arkansas, Indiana, New Jersey and South Dakota which were confirmed between 15 November 2025 and 8 June 2026 by laboratory analysis (RT-PCR).
- (11) The United States have informed the Commission that, following those earlier outbreaks of HPAI, they had implemented a stamping out policy in order to control and limit the spread of that disease, and they had also completed the requisite cleaning and disinfection following the implementation of the stamping out policy in the infected poultry establishments.
- (12) The Commission has evaluated the information submitted by the United States in that regard and considers that they have provided appropriate guarantees that the animal health situation that had given rise to the suspension of the entry of consignments of poultry and germinal products of poultry, and of fresh meat of poultry and game birds into the Union from the affected zones, as set out in the table in Section B of Part 1 of Annex V, and in the table in Section B of Part 1 of Annex XIV to Implementing Regulation (EU) 2021/404, no longer represents a threat to animal or public health in the Union, and that, consequently, the entry into the Union of those consignments from the affected zones of the United States, from which entry into the Union had been suspended, should be re-authorised. Therefore, the entries for the United States in those tables in those Annexes should be amended accordingly.
- (13) Taking into account the new HPAI outbreak in the United States, the amendments to be made to Annexes V and XIV to Implementing Regulation (EU) 2021/404 by this Regulation should take effect as a matter of urgency.
- (14) The measures provided for in this Regulation are in accordance with the opinion of the Standing Committee on Plants, Animals, Food and Feed,
